The Weather.

WASHINGTON, March 24.—Indiana: Slightly warmer, fair weather, followed by snow or rain.

"If You Want Fine, High Priced Furniture, Such as Our Rich City People Buy, That is the Place to Purchase. But if You Want a Low Priced Cheap Article, You Will Not Find it There. They Only Sell Fine Goods."

The above was what an esteemed competitor of ours told a country customer of his the other day, when he wanted to come over to our store and look at our stock before buying.

Our competitor's compliment is a little "left handed." We rather like to be designated as "Headquarters for Fine Goods," but we don't want our country friends, or the humbler classes of our city people, to be deceived into thinking that we do not properly care for the interests of those who want the cheaper grades of Furniture. To the contrary of this, we claim that no Furniture establishment in the state gives so good an article of Low priced goods, for as little money as we do.

But there is one thing we never do. We never buy a poorly made piece of Furniture simply because is is cheap, not even in a $2 bedstead. We think it is to the interest of our customers to pay $2.50 for a bedstead that will last a lifetime, rather than $2 for one that will be in ruins with in a year.

Car loads of new spring Carpets, in most Exquisite Designs, have just reached us and are now ready for inspection.

Our Baby Carriage Department is having an immense trade. Our Low Prices, Handsome Styles and Enormous Assortment are enabling us to pretty thoroughly monopolize this branch of business.

Biggest Bargain yet: A large, handsome, Rattan Baby Carriage, with Lace Cover to parasol, with Steel Bicycle Wheels, with Rubber Tires—perfectly noiseless—for $10. Match it in the Universe, if you can.

NOT OVER YET.

The Burlington Switchmen Join the Striking Engineers Giving the Strike a New Phase.

CHICAGO, March 24.—At 12 o'clock last night a strike was inaugurated among the switchmen employed by the Burlington road. At midnight 150 of them took up thier lanterns and left for Turner hall, where a rousing mass meeting of the Brotherhood was in progress.

The announcement that the switchmen of the Chicago, Burlington and Quincy were in full sympathy with the striking engineers and firemen and had decided to stand by them, was greeted with roars of applause.

The switchmen and brakemen were in constant danger of life and limb from alleged incompetency of engineers and firemen who had taken the places of the Burlington members of the brotherhood.

Not a single switchman refused to obey the order to leave their posts. The switchmen after the strike were mum as before, except to intimate they had assurances that none of the Knights of Labor among the new engineers and firemen on the Burlington would work with non-union switchmen.

HOW IT LOOKS TO DAY.

The freight traffic on the Burlington, which yesterday was moving practically the same as before the engineers' strike, is to-day at a stand-still again. Two hundred switchmen, employed in the Burlington yards here, struck early this morning without any notice whatever to the road.

The switchmen at Aurora, Ill., also stopped work, but that was the only outside point affected, as far as the company knew of up to 9 o'clock this morning.

The officials decided, however, to move no freight at all until this second strike is settled, and with the exception of live stock trains in transit, no freight is moving. The passenger trains are running as usual. The company has received no notice at all from the switchmen and no grievance has yet been presented or a demand made upon them by the switchmen's union.

It was common gossip that the switchmen had been taken into the fold of brotherhood in consideration of their going out on a strike. About 500 men are involved.

BURLINGTON, March 24.—There has not yet been any strike of the switchmen here and none is reported on the Iowa division.

SPRINGFIELD, March 23.—The citizens of Aurora have asked the board of railroad and warehouse commissioners to investigate the charges that the engineers and firemen on the Chicago, Burlington and Quincy trains running through Aurora, are incompetent.

ST. LOUIS, March 24.—There is no strike among the brakemen and switchmen on the Burlington system in this city or in East St Louis.

CHICAGO, March 24.—The switchmen in the Chicago yards of the Chicago, California and Santa Fe railway struck this morning at an early hour. The switchmen on the Santa Fe company have been at odds for some days about their yard master and the men concluded to bring matters to a settlement by striking.

CHIEF JUSTICE WAITE.

His Funeral to be Held at Washington Thursday.

WASHINGTON, March 24.—A telegram has been received from Mrs. Waite acquiescing in the suggestion that the funeral services of the late chief justice be held in the hall of the house of representatives next Wednesday and that the body be privately interred at Toledo the next day.

Mrs. Waite left Los Angelos at 10 o'clock last night to come east immediately. Dr. Ruth leaves Washington to-day to meet her at Kansas City and escort her to Toledo. Edward T. Waite, the second son, will remain in Toledo to meet his mother.

TWENTY-THREE HUNDRED MEN.

Thrown Out of Employment in the Chicago Rolling Mills.

CHICAGO, March 24.—Twenty-three hundred men, who went to work, in the rolling mills, at South Chicago, February 6, after an enforced idleness of three months, will be out of employment again April 1. The mills shut down on that date on account of over production. It is thought work will not be resumed before July 1.

Brakeman Killed.

ALLIANCE, Ohio, March 24.—Johnnie Mossholder, a brakeman on the Pittsburg, Fort Wayne and Chicago railroad, fell from a moving train near East Palestine, Ohio, yesterday afternoon about 1 o'clock, and was instantly killed. He was about twenty-six years of age, and a son of Engineer Mossholder, of this place. His remains were taken home last night.

Death of a Prominent Presbyterian Minister.

LOUISVILLE, March 24.—The Rev. J. W. Pratt, one of the best known ministers of the southern Presbyterian church, and at one time president of the Central University of Kentucky, died at his residence in this city this morning.

George Flaig and Hannah Krumma have been licensed to wed.

FIERCE FLAMES.

The Business Portion of an Ohio Town is Destroyed by Fire This Morning.

TOLEDO, O., March 24.—A fire this morning, at North Baltimore, Wood county, destroyed the business section, including Chalfant's grocery, Clark's dwelling and a drug store, Pfeiffer's saloon, Knoke & Dirk's hardware store, Henry O'Hara's house and Benner's dry goods store. The total loss is $25,000; partly insured. The origin of the fire is unknown.

PHILADELPHIA, March 24.—The Central theatre, on Walnut street, above Eighth, was totally destroyed by fire this morning. The fire broke out about 8 o'clock, and later the rear wall fell on the Theatre Comique.

TEN WIVES.

Arrest of a Doctor for Bigamy, Who Has Ten Wives, All of Whom Are Living.

FINDLAY, O., March 23.—At 10 o'clock last night Sheriff Cusac arrested and lodged in jail Dr. J. M. Chaplin, on a charge of bigamy preferred against him by his seventh living wife, a lady from Greenville, Ind. The arrest of the doctor discloses a most remarkable state of affairs, and an investigation of his record now in the hands of the prosecuting attorney of Wood county, R. S. Parker, stamps Chaplin as being the champion bigamist and rascal of the age, as it is clear he has been the husband of ten different women, seven of whom are yet living, and from none of which was he ever divorced.

OUR ELEGANT BEER.

It Has a Reputation Abroad and is Constantly Winning New Laurels.

Mr. Louis Centlivre, the popular and energetic young brewer of this city, returned from Findlay, Ohio, this morning. While there he met Mr. F. M. Kegley, who has been the agent for Cincinnati, Toledo and Milwaukee beers in that city.

Mr. Centlivre had sent to Mr. Kegley samples of the famous beer manufactured by him in this city, and so pleased was he with its merits that he cancelled all his agencies to handle only the beers manufactured by the Centlivres.

A car load of the delicious "foaming" will be sent to Mr. Kegley Monday, together with a handsome delivery wagon and team of horses.

This is a great "feather in the cap" of Fort Wayne beer and quite a compliment to our energetic young townsman, Mr. Louis Centlivre, who has brought the famous Centlivre beer to a state of perfection sufficient to win favor in every field where it is introduced and displace such strong competitors as the Cincinnati, Milwaukee and Toledo beers. The truth is, and the history of the sales of Mr. Centlivre prove it every day, that the Famous Centlivre beer stands at the head of the list and wins new favor everywhere.

Prim American Tories.

As late as fifty years ago there were three old maiden ladies living at Hingham, Mass., who retained their loyalty to the British crown, and spoke of William IV. as their sovereign lord. They were the Misses Barker, whose father had been an officer in the British army previous to the Revolution, and his sword hung over their fireplace.

Their talk was about things before the Revolutionary war and of the friends who went to England rather than live in the revolted colony.

One day, shortly after the death of a noted Massachusetts jurist, Chief Justice Parker, a gentleman called upon the Misses Barker. In the course of the conversation, he said:

"We have met with a sad loss, ladies, in the death of our Chief Justice."

"*We, too,*" replied the eldest lady, applying a handkerchief to her eyes, "have met with a heavy loss in the death of George IV."

The monarch of unsavory memory had died that June, and the old ladies were dressed in purple, which was then the court mourning. They received a pension from the British Government on account of their father's services, and always spoke of themselves as "eating the King's bread."—*Youth's Companion.*

The young people of the Third Presbyterian church have organized a social club and have officered it as follows: President, A. M. Tower; vice president, John Donavin; secretary, Mary Brokaw; finance clerk, E. G. Schultz; treasurer, Minnie Homsher.

A Card.

I would like to inform my friends and the public generally, as there is a rumor afloat that I had sold my saloon and would leave the city to visit the fatherland, that such is not the case. But having now enlarged, and with all new improvements adopted in my line of business, that I can now most cheerfully recommend my house of call to my many friends. Endeavoring always to suit my customers, and comply with their wishes. I always keep the best brand of the justly celebrated Centlivre beer, also the best liquors and cigars in the market, and a refreshing lunch always on hand. Respectfully, Jacob Meyer, No. 6 Force street, Frenchtown.

THE PITTSBURG.

E. B. Taylor, of Pittsburg, Appointed Manager of the Pennsylvania Company's Lines West of Pittsburg.

PITTSBURG, March 24.—It has been decided to appoint E. B. Taylor, of this city, manager of the Pennsylvania company's lines west of Pittsburg, vice Wm. Baldwin, resigned. Mr. Taylor is at present superintendent of the Pan Handle railway company.

IT IS CONTAGIOUS.

Petty Thefts Getting to be Alarmingly Prevalent Hereabouts—Three More Cases.

Yesterday Mayor Muhler sent three boys to jail for stealing iron. This morning three more youngsters were on the carpet on a similar charge. They are James Meehan, John Calahan and Wm. Carey, who are accused of stealing a revolver and a whole case of carpenter tools from Joseph Mertz. Mayor Muhler continued their trial for a week in order to give their parents an opportunity to arrange for transferring the wayward lads to the state reform school.

Officer Limecooly, yesterday, received a telegram from the sheriff of Noble county, instructing him to arrest Charley Alvord, the well known printer, on a charge of larceny. Mr. Alvord wanted to be cute about it and leaped from the train at Fairfield avenue, but Mr. Limecooly and the "Lillie" were soon on the spot to take care of him. He confesses his guilt, and says that while drunk, at Albion, he took from the Commercial house, a watch. "I would have sent it back, this morning, when I got sober," said the prisoner, who is known to the printing fraternity far and wide.

Parties are now here from Albion to claim their property, which was found on Alvord's person.

He wants to be tried here instead of Albion. "Albion is my old home," he said, "and I don't want to go up there on a charge like this."

His cousin, Mr. S. E. Alvord, publishes the Albion *Democrat*.

The next victim is James Walsh. He went to the office of the Ranke & Yergen's stave factory, yesterday, and stole an overcoat and two inside coats from Mr. Ranke. Proof of his guilt was conclusive and the mayor bound him over for trial in the sum of $200.

Glad Tidings from Reinecke's Orchestra.

Professor Reinecke will shortly put in rehearsal "St. Patrick's Day in the Morning," "Wearing of the Green," "The Irish Washerwoman," and a few other late classic publications for the benefit of Professor Moynihan, of THE SENTINEL, who occasionally breaks out with a drive at the Temple orchestra. Why don't Professor Moynihan, once in a while, take a crack at the Temple management, which limits the orchestra to so small a number of men.—*Journal.*

This announcement that Professor Reinecke's orchestra is to play national Irish airs will be hailed with mingled sighs of relief and gratification by the long suffering Temple patrons. Although there are numberless musical gems composed for orchestras of six pieces, Professor Reinecke and his band have never discovered but a very few of them, which, with one or two operatic selections, have been fired at the Temple patrons with a monotonous constancy that suggests "chestnuts," "rats," and "come off." The fact that the Temple management cannot afford to engage a larger orchestra should not deter Prof. Reinecke's band from playing new music once in a great while. Their present musical repertoire has "whiskers" on it. It drives Colonel Shober to drink and keeps many people from the Temple. Give us "Wearing of the Green." Anything but the old stuff.

The Lagrange *Democrat* says: "We are under obligations to Hon. P. S. O'Rourke for a valuable document concerning the effects of a protective tariff upon the interests of a community. It traces the history and development of a new nation through the eras of revenue and protective tariffs, and exposes the iniquities of our present system so plainly that they must be made apparent to the most ordinary comprehension. The work delves so in details, that the point is made plain that its author has given the subject careful investigation, patient research and a practical elucidation."

Salvation Oil does not simply assuage pain; but, by quickly finding its way to the seat of the disease, allays the swelling and inflammation, and, by removing the cause of the disease, effects a permanent cure. Price twenty-five cents a bottle.

Another Blooded Trotter Coming.

The New York *World*, of Thursday, gives space to the sale of blooded horses by Kellogg & Co., at the American Institute in that city. Among the purchases is this one:

"Bay horse Nil Desperandum (1871), record 2:24, by Belmont, dam Lady McKinney, to Rockhill & Fleming, Fort Wayne, for $1,025."

Messrs. H. C. Rockhill and Will Fleming are en route home with their flyer.

AN INSANE WOMAN

Murders Her Children With "Rough on Rats" and Reports Her Crime to the Police.

NEW YORK, March 24.—Mrs. Leubkenchner, a poorly dressed woman, entered the police station at 2 o'clock this morning and said she had killed two of her children and the third was dying at her house, 154 West Twenty-eighth street. An officer went with her. On the way she told him she had been a widow four years; the children had been taken from her and put in an asylum, and she got them back with much difficulty.

Work falling off and starvation before her, she determined to kill them. Wednesday morning she gave them "rough on rats" in tea and Thursday, Anthony, aged nine, and Charles, aged seven, died; Christopher, aged four, is living. The officer found the children dead as stated, put the woman under arrest and sent the living child to the hospital. It cannot recover. The woman is evidently insane.

Death of Councilman Daniel Lahmeyer.

Last evening at 5 o'clock, after an illness of four or five days, occurred the sudden death of Councilman Daniel Lahmeyer, from disease of the heart.

He was fifty-seven years of age and his wife and daughter, Mrs. Charles Schroeder, survive him.

His life was useful and as a reward he leaves to his family a very large estate, including valuable business property on Calhoun street—the Darrow house, the store occupied by Mr. Goldsmith and many residence houses.

Last May Mr. Lahmeyer was chosen to the city council by the people of the Fifth ward and served in that body with honor and distinction. He was a man of good judgment, very fair in all things and so honorable and upright that he won the respect of all men.

Mayor Muhler expresses the deepest sorrow at Mr. Lahmeyer's death and pronounced his loss a severe one to the municipality, so admirable an officer and so good a man was he. His honor says that all the city officers and councilmen will attend the funeral, which will occur next Tuesday at an hour not named.

Tuesday evening the councilmen will take appropriate action on the death of their colleague, who was a member of the city health board and the park and pound committees.

MAYOR MUHLER

Will Do Honor to Chief Justice Waite in This City.

Chief Justice Waite, intelligence of whose death was received with profound sorrow yesterday, was president of the Maumee Valley Monumental association, which met in this city last fall. The object of this association is to appropriately mark historic battle grounds in Ohio and Indiana, including the "*Old Fort*" site, on East Main street, made remarkable by General Wayne's achievements.

"On the occasion of Mr. Waite's funeral," said Mayor Muhler this morning, "I will have the flag on the 'Old Fort' unfurled at half mast in honor of the distinguished dead. He took great pride in the monumental association and was its strongest supporter. While his death is mourned, and justly so, by the whole nation, it comes to us with deeper weight from the fact that he interested himself very much in behalf of our people and affairs during his long and honorable career."

THE absconding treasurer of Kentucky has republican symptoms.

INDIANAPOLIS is just now talking of putting in an electric light plant. What a slow place.

THE Indianapolis newspapers are urging that the streets be brightened by electric lights. It will help to find the police force after night.

THIS cold wave is accounted for. The *Gazette* announces that ex-Senator Harrison is coming. His approach operates on the air like an ice machine.

THE nomination of Mr. George W. Brackenridge, for trustee, excites widespread approval from all classes of people. Assurances of support come from every quarter of the city.

THE Indianapolis *News* says that Mr. J. W. Buskirk, of Monroe county, in speaking of politics, said: "The Fifth district will be solid for Matson for the governorship. Though he had considerable opposition in his last race for congress, it has all vanished, apparently, now."

THE Portland *Sun*, in its issue of Thursday evening, pays this compliment to Mr. Dougherty's candidacy: "Hon. Hugh Dougherty, of Bluffton, will be a candidate before the democratic state convention for auditor of state. This announcement follows the positive refusal of Chas. A. Munson to allow his name to be used before the convention. We know of no democrat in Indiana whom we would rather support than Hon. Hugh Dougherty."

THE attorney general of the state has rendered an opinion in which he holds that money which has once been turned into the common school fund of the state, either by the county or the individual, can not be withdrawn, even though the sum so paid is in excess of the claim of the fund against the county or person paying. He bases his decision on the constitution, which expressly says that the common school fund may be increased but never decreased.

BE kind to the dogs, for the poor creatures are ever true. The howling of dogs for two days and nights on the banks of Pigeon creek, two miles from Evansville, attracted the attention of the police, and an investigation disclosed the body of John Scherle, the son of a wealthy German farmer, under the waters of the creek. He had been hunting, and, it is presumed, lost his way during the rain and wind storm, walked into the creek and was drowned. The faithful dogs watched the spot until assistance came.

"I HAVE a poor opinion of the leaders of the democratic party in this city," said an old time member of that party yesterday, speaking of the convention Thursday night. "The idea of democrats voting to nominate a republican for trustee, beats me."—*Morning Gazette.*

The delegates were assured by gentlemen whom they could not doubt that Mr. Hilbrecht had written a letter accepting the democratic nomination, if it were tendered him. They were assured that he had voted for Mr. Tilden for president, that he was an active Cleveland supporter and used to be a democrat in good standing. This was not accepted as proper proof of democracy by a majority of the delegates and Mr. Hilbrecht's proffered candidacy was courteously rejected. The republicans will be confronted by similar pledges of fealty from Mr. Hilbrecht to-night. They may consider them as they please, but we mistake the calibre of the rank and file of that party if they succeed in handing over to Mr. Hilbrecht the votes of men who honorably pride themselves in consistency.

The Princess of Wales wears a very small bustle, yet the whole of England is in an awful bustle about it; one would suppose they had run short of Dr. Bull's Cough Syrup, which is largely used in that country for asthma, sore throat, coughs, and colds.

If you require a spring medicine if you are suffering with languor, debility, pimples, boils, catarrh, chronic sores, scrofula, or loss of appetite, or any disease arising from impure blood, take Ayer's Sarsaparilla—the safest and most economical of all blood purifiers.

UNDER GROUND WIRES.

The city council of Cleveland has pointed a way out of the telegraph wire controversy in Fort Wayne. The Cleveland *News* and *Herald* tells the story in this way: "The action of the board of councilmen Monday evening in passing, by an almost unanimous vote, the ordinance requiring all telegraph, telephone, and electric light and power companies to place their wires under ground, in certain streets and within a certain time, will be heartily approved by the people of Cleveland. The territory in which wires must be buried includes the principal business district of the city, and the time granted the companies for doing the work ranges from one year to three years. The city council will retain the power to add other streets to those specified, as may from time to time seem expedient and reasonable, and a long step has certainly been taken toward removing the unsightly and dangerous wires from all the streets of Cleveland. If the board of aldermen does its duty the ordinance will speedily be in force, and then the work of burying the wires will doubtless be begun early this spring."

This plan was suggested by Mayor Muhler some time ago and should be put into operation at once. Some of our officials have examined the underground wire system at Chicago and pronounce it entirely practicable in Fort Wayne.

It is the only way out of the present dilemma which promises to drag its unsightly and dangerous length through the courts all summer, if the Western Union company is not permitted to resume its former sway.

It is fair to presume that this corporation would not hesitate to place its wires underground, for with the telephone and other lines the cost would be nominal and the expense of maintenance is nothing at all to speak of after that.

The city council can ingratiate itself with all citizens if it will put this underground wire plan into operation at once.

A QUEER MISSION.

On His Way to Australia to Rid the Country of the Rabbit Pest.

Mr. Eugene Lynn Spotts, of New York City, was one of the passengers on the Pittsburg going west last evening, who stopped at the McKinnie railroad house for supper. He was a middle-aged and unpretentious looking man to a casual observer, but a closer scrutiny revealed in the clear-cut features and high, retreating forehead an intellectuality that suggested a professional man of some kind. He was on his way to Australia and his mission to that far off country was a peculiar one, as he told our reporter while eating his supper.

"For years," he said, "Australia has been overrun with rabbits and they have become such a pest that they are devastating everything that is raised in that country. There are millions of them and they all come from four ancestors which were taken to that country from England in 1847. The ravages of these apparently harmless creatures are simply terrible, and that government has offered a reward of $250,000 for their extermination. I am going to get that reward."

"But how?" asked our interested youth, as the scientific gentleman leaned back to sip the cup of coffee that closed his hastily partaken meal.

"I have with me thirty-six rabbits, inocculated with an unerringly fatal and contagious rabbit disease, and when I get to Australia these will be turned loose upon the country. It won't be long, I tell you, until my plan will have its results, and Australia will be rid of its rabbit pest."

"Then you expect to come back with the $250,000?"

"Yes," he replied, leaning back with the air of a millionaire and "chinking" the silver dollars in his pocket—as if it was already his gold—coined reward, "that's what I do; I go on a commission from the premier of New South Wales, and the experiments I have already made convince me that I shall be successful."

And with a hasty "that's my train, sir," he left the dining-room and was soon speeding on his way to Chicago. Mr. Spotts will stop at Chicago to meet some friends from St. Louis, of which city he is a native, and will go to San Francisco, where he is booked to sail for Australia on the 29th inst.

REV. C. H. WILKINSON.

The Pastor of the Simpson Church Will Probably be Returned for Another Year.

Rev. C. H. Wilkinson, the pastor of the Simpson M. E. Church, will leave Tuesday for Wabash to attend the annual conference of his church and he will preach the farewell sermon of the year to-morrow.

There are few ministers anywhere who have been more successful and popular in their church work than Rev. Wilkinson and it is probable that he will be returned to this city for another year.

He has been in his present charge for one year and yet during that time he has accomplished a wonderful work in the way of building up the church congregation and the Sabbath school. His revivals of last winter, lasting for many weeks, were very successful and many new members were added to the church list.

He is an earnest, zealous worker, an eloquent pulpit orator and has made many friends, both inside and out of church circles who will welcome his return to this city again.

See "Mam'zelle" to-night.

Bob Cunningham, resident superintendent of the Star Tower company, has fitted up an office which for beauty and convenience has no equal in the city. The style is ancient and the material used in its construction is imported from Michigan. It is hand painted (by Logan); in color it is black; the dure is is beautiful, in order to harmonize the different factions in his employ; the door is painted a dead black (for Logan), with a on orange border (for Drouwn), with McLish's monogram done in green in the center panel..

There was quite a ripple of excitement in the carbon room last Wednesday afternoon, caused by the accidental overturning of a can of gasoline, which in some manner became ignited, causing a general stampede among the ladies in their frantic efforts to escape from the room. There were some of the grandest circus performances ever witnessed. For instance there was Miss Millie, who cleared a table three feet high without touching hand or feet, while Miss Emma, in some unaccountable manner, became tangled among several chairs, it taking some time to extricate her. Miss Laura, more brave than the rest, stood her ground bravely, and gently waved her apron to and fro while she sweetly lisped in accents soft and tender, "shoo, shoo!" At this critical moment Jimmy Ward arrived, and seizing a pail of water, he dashed heroically to action; but instead of throwing his water where it would do the most good, he threw it upon the now kneeling form of Miss Laura, who, upon receiving the chilly contents of the bucket, immediately ceased her "shoo shooing," and rushed frantically from the room. By this time foreman Fraauntz arrived and succeeded in subduing the flames without further damage. MORE ANON.

INFANTILE SKIN DISEASES

Our oldest child, now six years of age, while an infant six months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the Cuticura Remedies. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and today he is a strong, healthy, child perfectly well, no repetition of the disease having ever occurred.

CONSTITUTIONAL CATARRH.

No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell, of taste, of sight, of hearing the human voice, the mind,—one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vitial force, and breaks up the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sauford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell, taste and hearing, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure consists of one bottle of the Radical Cure, one box of Catarrhal Solvent, and one Improved Inhaler, price $1. POTTER DRUG & CHEMICAL CO., BOSTON.

A Boon

To mankind, said a member of the State Medical Society of Ga., at one of its meetings, "and the prescription ought to be given to the medical fraternity for the benefit of the Profession, for no such combination exists in the Pharmacopea as that of Simmons Liver Regulator." The late THOS. H. POWERS, of Philadelphia, America's greatest chemist, asserted "it was like the discovery of Dover, in his celebrated Dover's Powder, it could not be improved and it was wonderfully strange that the combination had never been made in an officinal form."

L. M. HINTON, M. D., Washington, Ark., says: "No other remedy within my knowledge can fill its place. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action and at the same time aid (instead of weakening) the digestive powers."

Symptoms such as bitter or bad taste in the mouth; pain in the back, often taken for Rheumatism; sour stomach; loss of appetite; bowels alternately costive and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick yellow appearance of the skin and eyes; a dry cough often mistaken for Consumption, indicate Liver disease, and if not regulated in time great suffering, wretchedness and death will often ensue.

Price $1. Sold by all Druggists. Prepared by J. H. ZEILIN & Co., Philadelphia, Pa

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs**, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at **$1.00**, or Six Bottles for **$5.00**.

The Juggler's Fatal Wand.

In Batavia a Parsee juggler treated the Dutch residents to a novel matanza, or killing show, in the circus of the old city bull-ring.

His victims were a number of worthless curs which their owners or captors had brought along with the distinct understanding that their entries would not survive the incidents of the performance. With no weapon but a light stick (possibly a tube), some six feet long by an inch in diamater, the performer entered the arena, and then invited his patrons to start their pets one at a time. A lank hound, almost hairless with mange, opened the festivities by making a rush around the ring, but stopped short on finding his way barred by the still lanker professor, and retreated after displaying his few remaining teeth. The necromancer held his staff at arm's length, still facing the dog, who presently began to stagger, and two minutes after had expired in convulsions. A second cur managed to run the blockade by leaping over the extended staff, but soon after began to show signs of disease, and before the end of the third minute had shared the fate of his predecessor. Dog after dog entered the ring in quick succession, some of them stopping in surprise and sniffing at the corpses of their doomed forerunners, but all finally approached the possessor of the fatal secret, or even snapped at his naked shins, and not one of the 1,000 spectators saw him strike a direct blow, or defend himself in any way suggesting a mechanical explanation of the uniform result. He would merely lift his staff with a menacing gesture or permit a blockade runner to touch it in darting by, but in no instance was there occasion for repeating that touch. The victims had hardly time to complete the circuit of the ring before their gait underwent a peculiar change: they would drag themselves along and stagger, or start as under a sudden blow, then roll over and die in the convulsions characterizing the effects of certain virulent drugs. They had evidently been poisoned; but how? A post-mortem inquest failed to reveal as much as a scratch or a puncture. A poisoned arrow could not have entirely disappeared while a gaseous poison would have betrayed itself by its odor or by its effects on the person of the performer. After the conclusion of the matanza Mr. Gerstaecker secured a private interview with the artist, and in vain offered him a liberal inducement to explain the modus operandi of his trick. The Parsee seemed bribe-proof, but at last took his tempter aside and in a whisper guaranteed the results of his professional assistance if the inquirer should wish to try the efficacy of his art by an experiment on a two-legged subject—the account of the proffered compensation having evidently suggested a conjecture that the Western rising foreigner was sizing up the chances of some obnoxious fellow-being.—[Illegible.]

An Imperative Necessity.

What pure air is to an unhealthy locality, what spring cleaning is to the neat housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized, the gems of disease destroyed. Scrofula, Salt Rheum, and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

How a Dying Child Was Saved!

CICERO, HAMILTON CO., IND., Sept. 19, 1887.—The following is a true account of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and finally quit walking entirely. The middle finger and thumb of either hand became enlarged, the flesh becoming hard. The hip joints became involved, so that when seventeen months old she could not stand, having lost the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of flesh and muscle. At eighteen months of age she was placed under the treatment of a prominent physician of Boston, Mass., but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1886 We took the child away not knowing what to do. In this dreadful dilemma we were over-persuaded by friends to try "one bottle" of SWIFT'S SPECIFIC, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills, for many days to come, for it has brought our dying Hazel to life, to vigor, to strength and health again. The ashen hue of her cheeks has changed to a rosy tint. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to increase your testimonials of proof of the virtue of S. S. S., our names and what we have said is but a portion of what we owe to you, should you wish to use them.

Kindly yours,

HISTORIC TESTIMONY TO MIRACLES.

A Change Going on in the Philosophical Thinking of the Day.

[Rev. Dr. S. P. Sprecher, of Cleveland.

As long as men believed that miracles were a priori impossible they were incompetent judges of the historical testimony concerning them. When they once perceive that all such a priori conceptions of the impossibilities of miracles are groundless they will be prepared to appreciate the biblical testimony concerning them. Who shall say that the evidence will not appear much more adequate when that old way of thinking is abandoned?

The report in which especially the evidence appears to Professor Huxley to be inadequate he points out in this sentence: 'Scientific ethics can and does declare that the profession of belief in them, on the evidence of documents of unknown date and of unknown authorship, is immoral. The difficulty which Professor Huxley here raises does not apply to at least one of the miracles recorded in the New Testament and that the most important, viz: the resurrection of Jesus Christ. Here we do know both the authorship and the date of certain books which record this miracle. All critics, without any exception, admit the authenticity of four epistles of the Apostle Paul—Romans, Galatians and First and Second Corinthians—and they were written twenty-eight years after the death of Christ. It is also universally admitted that Paul had been a missionary of Christianity for about twenty years before he wrote these epistles, having been converted not later than from six to ten years after the crucifixion of Christ. Paul's account therefore of that miracle cannot be of the nature of a legend, but must be just such as was preached by the apostles within several years or immediately after the death of Christ. If it is to be purely a question of historical evidence, conceding that such evidence can be strong enough to establish a miracle, then we have the concessions of some of the greatest skeptics who have ever lived regarding the miracle of the resurrection of Christ and would have accepted it had they not been held in the fetters of that old notion that no amount of historical testimony can establish a miracle. Dr. Baur, the greatest of modern skeptics, and the acknowledged master of the modern critical school, at the close of his life made the concession that the conversion of Paul was to him a mystery which could only be explained by 'the miracle of resurrection.' Let any one without predetermination not to believe in miracles consider how Paul or the disciples could have believed and acted as they did and he will be convinced with Dr. Baur that the facts can only be accounted for on the basis of the miracle of the resurrection of Christ.

The truth is that it is not from natural science, but from a pantheistic or materialistic philosophy, that the skeptical state of mind respecting the supernatural, the divine personality, the possibility of miracles and the efficacy of prayer has risen. It is not from natural science, but from a mode of philosophical thought which is now on the wane, such as the materialism of France and the pantheism of Germany. Philosophers are now beginning to recognize the personal will of man as transcending the sphere of nature, and to acknowledge the fact that the conception of force in nature is derived from our consciousness of personal power. And, further, the greatest philosophical and metaphysical thinkers are recognizing this consciousness of the soul and of God as the most certain of all knowledge and to acknowledge the fact that though intimately connected with physiology and natural science they have clear points of distinction and independent grounds of proof, and that the soul and God are not the result of material evolution, but that God exists absolutely, and that he is the creator of the soul.

Thus a change is going on in the philosophical thinking of the day, which, instead of the skeptical state produced by the preceding materialism and pantheism, will lead to a disposition to believe in the possibility of miracles and answer to prayers and in the credibility of the scriptural testimony to their truth and reality. Instead of the present state of "derisive and unexamining incredulity," there will be a state of scientific belief in the possibility of miracles and answers to prayer, and a rational, scrutinizing but believing disposition to receive the testimony of the Bible concerning the personal Creator, and concerning His moral government over men and concerning the revelations of His supernatural redemption of the human family.

Can't Make Anything Like It.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the liver to action and at the same time aid (instead of weakening) the digestive and assimilative powers of the system.

No other remedy within my knowledge can fill its place.

Experience has demonstrated that Ely's Cream Balm is the best catarrh remedy in use. My daughter, who is a sufferer from that miserable disease, is much better by the use of one bottle.—Dr. R. A. Schouten, druggist, 758 So. Division St., Grand Rapids, Mich.

For twenty years I have suffered from catarrh. I purchased Ely's Cream Balm of J. Dawson & Son, which has so effectually cured my headache that I feel altogether a new man. I have recommended it to many with like good results.—M. M. Rez, D. D. S., Rochester, Ind.

THE following, says a Washington letter, is said to have been an actual occurrence one day last week at the house of a certain Western Senator, whose little daughter is known for her brightness and precocious ways. Senator B——, of Kentucky (both the Senators' names begin with B, and you may therefore take your choice), strolled in, in the course of an afternoon reception given by the wife of his Western colleague, and presently escorted another lady to the refreshment table, where a large bowl of lemonade—the hostess belongs to the Blue Ribbon Army—was provided for the thirsty visitors. In the act of raising the glass to his lips, and looking as if he were preparing to swallow a dose of medicine, the Kentuckian felt the hostess' little girl cling to his coat-tail, while at the same time she made an importunate request to be allowed to look on while he imbibed the cooling liquid. "I don't quite understand," said the puzzled Senator. "May I inquire, my dear, why you are so interested in the matter?" "O, yes," cried the child promptly. "I want to see you drink, because mamma says you do it like a fish."

DR. J. C. AYER & Co., Lowell, Mass.,

Gentlemen:—A sense of gratitude and the desire to render a service to the public impel me to make the following statements:

My college career, at New Haven, was interrupted by a severe cold which so enfeebled me that, for ten years, I had a hard struggle for life. Hemorrhage from the bronchial passages was the result of almost every fresh exposure. For years I was under treatment of the ablest practitioners without avail. At last I learned of

Ayer's Cherry Pectoral,

which I used (moderately and in small doses) at the first recurrence of a cold or any chest difficulty, and from which I invariably found relief. This was over 25 years ago. With all sorts of exposure, in all sorts of climates, I have never, to this day, had any cold nor any affection of the throat or lungs which did not yield to AYER'S CHERRY PECTORAL within 24 hours.

Of course I have never allowed myself to be without this remedy in all my voyages and travels. Under my own observation, it has given relief to vast numbers of persons; while in acute cases of pulmonary inflammation, such as croup and diphtheria in children, life has been preserved through its effects. I recommend its use in light but frequent doses. Properly administered, in accordance with your directions, it is

A Priceless Blessing

in any house. I speak earnestly because I feel earnestly. I have known many cases of apparently confirmed bronchitis and cough, with loss of voice, particularly among clergymen and other public speakers, perfectly cured by this medicine. Faithfully yours,

C. EDWARDS LESTER.

"While suffering from a severe bilious attack in March, 1883, a friend in Peoria, Ill., recommended Hood's Sarsaparilla. I tried the remedy, and was permanently cured." J. A. SHEPARD, travelling agent for Devoe & Co., Fulton Street, N. Y.

Mrs. Helen M. Gougar, of Lafayette, was called home from the International Council of Women, at Washington, by the intelligence of the death of her mother and will not return to the council. Each were to present the political phases of their respective countries and both were expected to make brilliant efforts. Mrs. Gougar was anxious to hear the lady Briton, a spirit of emulation prompting this desire.

There is considerable dissatisfaction among the ranks of the labor party with the nomination of Mr. Hilbrecht, and our reporter who circulates among many of the shop men, hears a good deal of it. He will not be supported with any enthusiasm, and many of the Knights of Labor have refused to vote for him for the office.

The active committees of the R. R. department of the Y. M. C. A., held a meeting at their rooms last evening for counsel and to plan for more aggressive work, which was well attended and for the interest of the work in the future. The local agent of the Wabash has received orders to receive Burlington freight, without any restriction whatever.

The manufactories are picking up a little in work, but as long as the railroad strikes remain unsettled business will suffer.

The night force in the Wabash freight office has been suspended and the employes of that department will now work extra hours.

The employes of the Wabash shops of this city have an excellent sick and benefit association. It is spoken of very highly by the Indianapolis *Journal*.

Henry Mennewisch, of the Pittsburg machine shops, who was one of the recently suspended employes, took a position in the round house this morning.

A large force of men were engaged this morning in cleaning the snow from the tracks at the Pittsburg and Wabash depots. It was loaded onto flat cars and hauled out of the city.

Mr. E. J. Pennington, of the Pennington machine works, met with a distressing accident yesterday by which he had the thumb of his right hand amputated. Mr. Pennington has been about machinery for many years and this is the first serious mishap that has attended his experience.

Ben Armack took a position in the Pittsburg machine shops yesterday in place of his brother Fred, who resigned. Our readers will recall the noble-hearted generosity of Ben during the recent suspension of employes in the shops, when he resigned his position to save his brother from being suspended.

The souvenirs to be presented their friends by Messrs. Sam, Pete & Max at the opening of their elegant new rooms will surprise the recipients.

"If You Want Fine, High Priced Furniture, Such as Our Rich City People Buy, That is the Place to Purchase. But if You Want a Low Priced Cheap Article, You Will Not Find it There. They Only Sell Fine Goods."

The above was what an esteemed competitor of ours told a country customer of his the other day, when he wanted to come over to our store and look at our stock before buying.

Our competitor's compliment is a little "left handed." We rather like to be designated as "Headquarters for Fine Goods," but we don't want our country friends, or the humbler classes of our city people, to be deceived into thinking that we do not properly care for the interests of those who want the cheaper grades of Furniture. To the contrary of this, we claim that no Furniture establishment in the state gives so good an article of Low priced goods, for as little money as we do.

But there is one thing we never do. We never buy a poorly made piece of Furniture simply because is is cheap, not even in a $1 bedstead. We think it is to the interest of our customers to pay $2.50 for a bedstead that will last a lifetime, rather than $2 for one that will be in ruins with in a year.

Our loads of new spring Carpets, in most Exquisite Designs, have just reached us and are now ready for inspection.

Our Baby Carriage Department is having an immense trade. Our Low Prices, Handsome Styles and Enormous Assortment are enabling us to pretty thoroughly monopolize this branch of business.

Biggest Bargain yet: A large, handsome, Rattan Baby Carriage, with Lace Cover to parasol, with Steel Bicycle Wheels, with Rubber Tires—perfectly noiseless—for $10. Match it in the Universe, if you can.

NOT OVER YET.

The Burlington Switchmen Join the Striking Engineers Giving the Strike a New Phase.

CHICAGO, March 24.—At 12 o'clock last night a strike was inaugurated among the switchmen employed by the Burlington road. At midnight 150 of them took up thier lanterns and left for Turner hall, where a rousing mass meeting of the Brotherhood was in progress.

The announcement that the switchmen of the Chicago, Burlington and Quincy were in full sympathy with the striking engineers and firemen and had decided to stand by them, was greeted with roars of applause.

The switchmen and brakemen were in constant danger of life and limb from alleged incompetency of engineers and firemen who had taken the places of the Burlington members of the brotherhood.

Not a single switchman refused to obey the order to leave their posts. The switchmen after the strike were mum as before, except to intimate they had assurances that none of the Knights of Labor among the new engineers and firemen on the Burlington would work with non-union switchmen.

HOW IT LOOKS TO-DAY.

The freight traffic on the Burlington, which yesterday was moving practically the same as before the engineers' strike, is to-day at a stand-still again. Two hundred switchmen, employed in the Burlington yards here, struck early this morning without any notice whatever to the road.

The switchmen at Aurora, Ill., also stopped work, but that was the only outside point affected, as far as the company knew of up to 9 o'clock this morning.

The officials decided, however, to move no freight at all until this second strike is settled, and with the exception of live stock trains in transit, no freight is moving. The passenger trains are running as usual. The company has received no notice at all from the switchmen and no grievance has yet bren presented or a demand made upon them by the switchmen's union.

It was common gossip that the switchmen had been taken into the fold of brotherhood in consideration of their going out on a strike. About 500 men are involved.

BURLINGTON, March 24.—There has not yet been any strike of the switchmen here and none is reported on the Lowa division.

SPRINGFIELD, March 23.—The citizens of Aurora have asked the board of railroad and warehouse commissioners to investigate the charges that the engineers and firemen on the Chicago, Burlington and Quincy trains running through Aurora, are incompetent.

ST. LOUIS, March 24.—There is no strike among the brakemen and switchmen on the Burlington system in this city or in East St. Louis.

CHICAGO, March 24.—The switchmen in the Chicago yards of the Chicago, California and Santa Fe railway struck this morning at an early hour. The switchmen on the Santa Fe company have been at odds for some days about their yard master and the men concluded to bring matters to a settlement by striking.

CHIEF JUSTICE WAITE.

His Funeral to be Held at Washington Thursday.

WASHINGTON, March 24.—A telegram has been received from Mrs. Waite acquiescing in the suggestion that the funeral services of the late chief justice be held in the hall of the house of representatives next Wednesday and that the body be privately interred at Toledo the next day.

Mrs. Waite left Los Angelos at 10 o'clock last night to come east immediately. Dr. Ruth leaves Washington to-day to meet her at Kansas City and escort her to Toledo. Edward T. Waite, the eldest son, will remain in Toledo to meet his mother.

TWENTY-THREE HUNDRED MEN.

Thrown Out of Employment in the Chicago Rolling Mills.

CHICAGO, March 24.—Twenty-three hundred men, who went to work, in the rolling mills, at South Chicago, February 6, after an enforced idleness of three months, will be out of employment again April 1. The mills shut down on that date on account of over production. It is thought work will not be resumed before July 1.

Brakeman Killed.

ALLIANCE, Ohio, March 24.—Johnnie Moosholder, a brakeman on the Pittsburg, Fort Wayne and Chicago railroad, fell from a moving train near East Palestine, Ohio, yesterday afternoon about 1 o'clock, and was instantly killed. He was about twenty-six years of age, and a son of Engineer Moosholder, of this place. His remains were taken home last night.

Death of a Prominent Presbyterian Minister.

LOUISVILLE, March 24.—The Rev. J. W. Pratt, one of the best known ministers of the southern Presbyterian church, and at one time president of the Central University of Kentucky, died at his residence in this city this morning.

George Fisig and Hannah Kramma have been licensed to wed.

FIERCE FLAMES.

The Business Portion of an Ohio Town is Destroyed by Fire This Morning.

TOLEDO, O., March 24.—A fire this morning, at North Baltimore, Wood county, destroyed the business section, including Chaifant's grocery, Clark's dwelling and a drug store, Pfeiffer's saloon, Knoke & Dirk's hardware store, Henry O'Hara's house and Benner's dry goods store. The total loss is $25,000; partly insured. The origin of the fire is unknown.

PHILADELPHIA, March 24.—The Central theatre, on Walnut street, above Eighth, was totally destroyed by fire this morning. The fire broke out about 8 o'clock, and later the rear wall fell on the Theatre Comique.

TEN WIVES.

Arrest of a Doctor for Bigamy, Who Has Ten Wives, All of Whom Are Living.

FINDLAY, O., March 23.—At 10 o'clock last night Sheriff Unsso arrested and lodged in jail Dr. J. M. Chaplin, on a charge of bigamy preferred against him by his seventh living wife, a lady from Greenville, Ind. The arrest of the doctor discloses a most remarkable state of affairs, and an investigation of his record now in the hands of the prosecuting attorney of Wood county, R. S. Parker, stamps Chaplin as being the champion bigamist and rascal of the age, as it is clear he has been the husband of ten different women, seven of whom are yet living, and from none of which was he ever divorced.

OUR ELEGANT BEER.

It Has a Reputation Abroad and is Constantly Winning New Laurels.

Mr. Louis Centlivre, the popular and energetic young brewer of this city, returned from Findlay, Ohio, this morning. While there he met Mr. F. M. Kegley, who has been the agent for Cincinnati, Toledo and Milwaukee beers in that city.

Mr. Centlivre had sent to Mr. Kegley samples of the famous beer manufactured by him in this city, and so pleased was he with its merits that he cancelled all his agencies to handle only the beers manufactured by the Centlivres.

A car load of the delicious "foaming" will be sent to Mr. Kegley Monday, together with a handsome delivery wagon and team of horses.

This is a great "feather in the cap" of Fort Wayne beer and quite a compliment to our energetic young townsman, Mr. Louis Centlivre, who has brought the famous Centlivre beer to a state of perfection sufficient to win favor in every field where it is introduced and displace such strong competitors as the Cincinnati, Milwaukee and Toledo beers. The truth is, and the history of the sales of Mr. Centlivre prove it every day, that the Famous Centlivre beer stands at the head of the list and wins new favor everywhere.

Prim American Tories.

As late as fifty years ago there were three old maiden ladies living at Hingham, Mass., who retained their loyalty to the British crown, and spoke of William IV. as their sovereign lord. They were the Misses Barker, whose father had been an officer in the British army previous to the Revolution, and his sword hung over their fireplace.

Their talk was about things before the Revolutionary war and of the friends who went to England rather than live in the revolted colony.

One day, shortly after the death of a noted Massachusetts jurist, Chief Justice Parker, a gentleman called upon the Misses Barker. In the course of the conversation, he said:

"We have met with a sad loss, ladies, in the death of our Chief Justice."

"*We, too,*" replied the eldest lady, applying a handkerchief to her eyes, "have met with a heavy loss in the death of George IV."

The monarch of unsavory memory had died that June, and the old ladies were dressed in purple, which was then the court mourning. They received a pension from the British Government on account of their father's services, and always spoke of themselves as "eating the King's bread."—*Youth's Companion.*

The young people of the Third Presbyterian church have organized a social club and have officered it as follows: President, A. M. Tower; vice president, John Donavin; secretary, Mary Brokaw; finance clerk, E. G. Schultz; treasurer, Minnie Romsher.

A Card.

I would like to inform my friends and the public generally, as there is a rumor afloat that I had sold my saloon and would leave the city to visit the fatherland, that such is not the case. But having now enlarged, and with all new improvements adopted in my line of business, that I can now most cheerfully recommend my house of call to my many friends. Endeavoring always to suit my customers, and comply with their wishes. I always keep the best braud of the justly celebrated Centlivre beer, also the best liquors and cigars in the market, and a refreshing lunch always on hand. Respectfully, Jacob Mayer, No. 6 Force street, Frenchtown. 21-4tp

THE PITTSBURG.

E. B. Taylor, of Pittsburg, Appointed Manager of the Pennsylvania Company's Lines West of Pittsburg.

PITTSBURG, March 24.—It has been decided to appoint E. B. Taylor, of this city, manager of the Pennsylvania company's lines west of Pittsburg, vice Wm. Baldwin, resigned. Mr. Taylor is at present superintendent of the Pan Handle railway company.

IT IS CONTAGIOUS.

Petty Thefts Getting to be Alarmingly Prevalent Hereabouts—Three More Cases.

Yesterday Mayor Muhler sent three boys to jail for stealing iron. This morning three more youngsters were on the carpet on a similar charge. They are James Meehan, John Calahan and Wm. Carey, who are accused of stealing a revolver and a whole case of carpenter tools from Joseph Metz. Mayor Muhler continued their trial for a week in order to give their parents an opportunity to arrange for transferring the wayward lads to the state reform school.

Officer Limecooly, yesterday, received a telegram from the sheriff of Noble county, instructing him to arrest Charley Alvord, the well known printer, on a charge of larceny. Mr. Alvord wanted to be outa about it and leaped from the train at Fairfield avenue, but Mr. Limecooly and the "Lillie" were soon on the spot to take care of him. He confesses his guilt, and says that while drunk, at Albion, he took from the Commercial house, a watch. "I would have sent it back, this morning, when I got sober," said the prisoner, who is known to the printing fraternity far and wide.

Parties are now here from Albion to claim their property, which was found on Alvord's person.

He wants to be tried here instead of Albion. "Albion is my old hostle," he said, "and I don't want to go up there on a charge like this."

His cousin, Mr. S. E. Alvord, publishes the Albion *Democrat*.

The next victim is James Walsh. He went to the office of the Banks & Yergen's stove factory, yesterday, and stole an overcoat and two inside coats from Mr. Banks. Proof of his guilt was conclusive and the mayor bound him over for trial in the sum of $200.

Glad Tidings from Reinecke's Orchestra.

Professor Reinecke will shortly put in rehearsal "St. Patrick's Day in the Morning," "Wearing of the Green," "The Irish Washerwoman," and a few other late classic publications for the benefit of Professor Moynihan, of THE SENTINEL, who occasionally breaks out with a drive at the Temple orchestra. Why don't Professor Moynihan, once in a while, take a crack at the Temple management, which limits the orchestra to so small a number of men.—*Journal.*

This announcement that Professor Reinecke's orchestra is to play national Irish airs will be hailed with mingled sighs of relief and gratification by the long suffering Temple patrons. Although there are numberless musical gems composed for orchestras of six pieces, Professor Reinecke and his band have never discovered but a very few of them, which, with one or two operatic selections, have been fired at the Temple patrons with a monotonous constancy that suggests "chestnuts," "rats," and "come off." The fact that the Temple management cannot afford to engage a larger orchestra should not deter Prof. Reinecke's band from playing new music once in a great while. Their present musical repertoire has "whiskers" on it. It drives Colonel Shober to drink and keeps many people from the Temple. Give us "Wearing of the Green." Anything but the old staff.

The Lagrange *Democrat* says: "We are under obligations to Hon. P. S. O'Rourke for a valuable document concerning the effects of a protective tariff upon the interests of a community. It traces the history and development of a new nation through the eras of revenue and protective tariffs, and exposes the iniquities of our present system so plainly that they must be made apparent to the most ordinary comprehension. The work delves so in details, that the point is made plain that its author has given the subject careful investigation, patient research and a practical elucidation."

Salvation Oil does not simply assuage pain; but, by quickly finding its way to the seat of the disease, allays the swelling and inflammation, and, by removing the cause of the disease, effects a permanent cure. Price twenty-five cents a bottle.

Another Bleeded Trotter Coming.

The New York *World*, of Thursday, gives space to the sale of blooded horses by Kellogg & Co., at the American Institute in that city. Among the purchases is this one:

"Bay horse Nil Desperandum (1871), record 2:24, by Belmont, dam Lady McKinney, to Rockhill & Fleming, Fort Wayne, for $1,025."

Messrs. H. C. Rockhill and Will Fleming are en route home with their flyer.

AN INSANE WOMAN

Murders Her Children With "Rough on Rats" and Reports Her Crime to the Police.

NEW YORK, March 24.—Mrs. Leahkenehner, a poorly dressed woman, entered the police station at 2 o'clock this morning and said she had killed two of her children and the third was dying at her house, 154 West Twenty-eighth street. An officer went with her. On the way she told him she had been a widow four years; the children had been taken from her and put in an asylum, and she got them back with much difficulty.

Work falling off and starvation before her, she determined to kill them. Wednesday morning she gave them "rough on rats" in tea and Thursday, Anthony, aged nine, and Charles, aged seven, died; Christopher, aged four, is living. The officer found the children dead as stated, put the woman under arrest and sent the living child to the hospital. It cannot recover. The woman is evidently insane.

Death of Councilman Daniel Lahmeyer.

Last evening at 5 o'clock, after an illness of four or five days, occurred the sudden death of Councilman Daniel Lahmeyer, from disease of the heart.

He was fifty-seven years of age and his wife and daughter, Mrs. Charles Schroeder, survive him.

His life was useful and as a reward he leaves to his family a very large estate, including valuable business property on Calhoun street—the Darrow house, the store occupied by Mr. Goldsmith and many residence houses.

Last May Mr. Lahmeyer was chosen to the city council by the people of the Fifth ward and served in that body with honor and distinction. He was a man of good judgment, very fair in all things and so honorable and upright that he won the respect of all men.

Mayor Muhler expresses the deepest sorrow at Mr. Lahmeyer's death and pronounced his loss a severe one to the municipality, so admirable an officer and so good a man was he. His honor says that all the city officers and councilmen will attend the funeral, which will occur next Tuesday at an hour not named.

Tuesday evening the councilmen will take appropriate action on the death of their colleague, who was a member of the city health board and the park and pound committees.

MAYOR MUHLER

Will Do Honor to Chief Justice Waite in This City.

Chief Justice Waite, intelligence of whose death was received with profound sorrow yesterday, was president of the Maumee Valley Monumental association, which met in this city last fall. The object of this association is to appropriately mark historic battle grounds in Ohio and Indiana, including the "Old Fort" site, on East Main street, made remarkable by General Wayne's achievements.

"On the occasion of Mr. Waite's funeral," said Mayor Muhler this morning, "I will have the flag on the 'Old Fort' unfurled at half mast in honor of the distinguished dead. He took great pride in the monumental association and was its strongest supporter. While his death is mourned, and justly so, by the whole nation, it comes to us with deeper weight from the fact that he interested himself very much in behalf of our people and affairs during his long and honorable career."

THE absconding treasurer of Kentucky has republican symptoms.

INDIANAPOLIS is just now talking of putting in an electric light plant. What a slow place.

THE Indianapolis newspapers are urging that the streets be brightened by electric lights. It will help to find the police force after night.

THE cold wave is accounted for. The *Gazette* announces that ex-Senator Harrison is coming. His approach operates on the air like an ice machine.

THE nomination of Mr. George W. Brackenridge, for trustee, excites widespread approval from all classes of people. Assurances of support come from every quarter of the city.

THE Indianapolis *News* says that Mr. J. W. Buskirk, of Monroe county, in speaking of politics, said: "The Fifth district will be solid for Matson for the governorship. Though he had considerable opposition in his last race for congress, it has all vanished, apparently, now."

THE Portland *Sun*, in its issue of Thursday evening, pays this compliment to Mr. Dougherty's candidacy: "Hon. Hugh Dougherty, of Bluffton, will be a candidate before the democratic state convention for auditor of state. This announcement follows the positive refusal of Chas. A. Munson to allow his name to be used before the convention. We know of no democrat in Indiana whom we would rather support than Hon. Hugh Dougherty."

THE attorney general of the state has rendered an opinion in which he holds that money which has once been turned into the common school fund of the state, either by the county or the individual, can not be withdrawn, even though the sum so paid is in excess of the claim of the fund against the county or person paying. He bases his decision on the constitution, which expressly says that the common school fund may be increased but never decreased.

BE kind to the dogs, for the poor creatures are ever true. The howling of dogs for two days and nights on the banks of Pigeon creek, two miles from Evansville, attracted the attention of the police, and an investigation disclosed the body of John Scherle, the son of a wealthy German farmer, under the waters of the creek. He had been hunting, and, it is presumed, lost his way during the rain and wind storm, walked into the creek and was drowned. The faithful dogs watched the spot until assistance came.

"I HAVE a poor opinion of the leaders of the democratic party in this city," said an old time member of that party yesterday, speaking of the convention Thursday night. "The idea of democrats voting to nominate a republican for trustee, beats me."—*Morning Gazette.*

The delegates were assured by gentlemen whom they could not doubt that Mr. Hilbrecht had written a letter accepting the democratic nomination, if it were tendered him. They were assured that he had voted for Mr. Tilden for president, that he was an active Cleveland supporter and used to be a democrat in good standing. This was not accepted as proper proof of democracy by a majority of the delegates and Mr. Hilbrecht's proffered candidacy was courteously rejected. The republicans will be confronted by similar pledges of fealty from Mr. Hilbrecht to-night. They may consider them as they please, but we mistake the calibre of the rank and file of that party if they succeed in handing over to Mr. Hilbrecht the votes of men who honorably pride themselves in consistency.

The Princess of Wales wears a very small bustle, yet the whole of England is in an awful bustle about it; one would suppose they had run short of Dr. Bull's Cough Syrup, which is largely used in that country for asthma, sore throat, coughs, and colds.

If you require a spring medicine if you are suffering with languor, debility, pimples, boils, catarrh, chronic sores, scrofula, or loss of appetite, or any disease arising from impure blood, take Ayer's Sarsaparilla—the safest and most economical of all blood purifiers.

UNDER GROUND WIRES.

The city council of Cleveland has pointed a way out of the telegraph wire controversy in Fort Wayne. The Cleveland *News* and *Herald* tells the story in this way: "The action of the board of councilmen Monday evening in passing, by an almost unanimous vote, the ordinance requiring all telegraph, telephone, and electric light and power companies to place their wires under ground, in certain streets and within a certain time, will be heartily approved by the people of Cleveland. The territory in which wires must be buried includes the principal business district of the city, and the time granted the companies for doing the work ranges from one year to three years. The city council will retain the power to add other streets to those specified, as may from time to time seem expedient and reasonable, and a long step has certainly been taken toward removing the unsightly and dangerous wires from all the streets of Cleveland. If the board of aldermen does its duty the ordinance will speedily be in force, and then the work of burying the wires will doubtless be begun early this spring."

This plan was suggested by Mayor Muhler some time ago and should be put into operation at once. Some of our officials have examined the underground wire system at Chicago and pronounce it entirely practicable in Fort Wayne.

It is the only way out of the present dilemma which promises to drag its unsightly and dangerous length through the courts all summer, if the Western Union company is not permitted to resume its former sway.

It is fair to presume that this corporation would not hesitate to place its wires underground, for with the telephone and other lines the cost would be nominal and the expense of maintenance is nothing at all to speak of after that.

The city council can ingratiate itself with all citizens if it will put this underground wire plan into operation at once.

A QUEER MISSION.

On His Way to Australia to Rid the Country of the Rabbit Pest.

Mr. Eugene Lynn Spotts, of New York City, was one of the passengers on the Pittsburg going west last evening, who stopped at the McKinnie railroad house for supper. He was a middle-aged and unpretentious looking man to a casual observer, but a closer scrutiny revealed in the clear-cut features and high, retreating forehead an intellectuality that suggested a professional man of some kind. He was on his way to Australia and his mission to that far off country was a peculiar one, as he told our reporter while eating his supper.

"For years," he said, "Australia has been overrun with rabbits and they have become such a pest that they are devastating everything that is raised in that country. There are millions of them and they all come from four ancestors which were taken to that country from England in 1847. The ravages of these apparently harmless creatures are simply terrible, and that government has offered a reward of $250,000 for their extermination. I am going to get that reward."

"But how?" asked our interested youth, as the scientific gentleman leaned back to sip the cup of coffee that closed his hastily partaken meal.

"I have with me thirty-six rabbits, inoculated with an unerringly fatal and contagious rabbit disease, and when I get to Australia these will be turned loose upon the country. It won't be long, I tell you, until my plan will have its results, and Australia will be rid of its rabbit pest."

"Then you expect to come back with the $250,000?"

"Yes," he replied, leaning back with the air of a millionaire and "chinking" the silver dollars in his pocket—as if it was already his gold—coined reward, "that's what I do; I go on a commission from the premier of New South Wales, and the experiments I have already made convince me that I shall be successful."

And with a hasty "that's my train, sir," he left the dining-room and was soon speeding on his way to Chicago. Mr. Spotts will stop at Chicago to meet some friends from St. Louis, of which city he is a native, and will go to San Francisco, where he is booked to sail for Australia on the 29th inst.

REV. C. H. WILKINSON.

The Pastor of the Simpson Church Will Probably be Returned for Another Year.

Rev. C. H. Wilkinson, the pastor of the Simpson M. E. Church, will leave Tuesday for Wabash to attend the annual conference of his church and he will preach the farewell sermon of the year to-morrow.

There are few ministers anywhere who have been more successful and popular in their church work than Rev. Wilkinson and it is probable that he will be returned to this city for another year.

He has been in his present charge for one year and yet during that time he has accomplished a wonderful work in the way of building up the church congregation and the Sabbath school. His revivals of last winter, lasting for many weeks, were very successful and many new members were added to the church list.

He is an earnest, zealous worker, an eloquent pulpit orator and has made many friends, both inside and out of church circles who will welcome his return to this city again.

See "Mam'selle" to-night.

BRIGHT SPARKS.

Doings at the Jenney Electric Light Works—The Maidens in a Blaze.

M. M. Slattery has returned from New York.

Supt. Hilton is confined at his home by a severe cold and sore throat.

H. R. Deal, late of Wabash, has accepted a situation as blacksmith.

A thirty-light incandescent dynamo was shipped to Kansas city this week.

The new large planer has been placed in position and will be doing service in a day or two.

Several of our lady employes have been suspended, owing to the non-arrival of much needed material.

J. M. Pelton, of Lyons, Iowa, is being instructed in electrical matters for the purpose of taking charge of the home plant.

Bob Cunningham, resident superintendent of the Star Tower company, has fitted up an office which for beauty and convenience has no equal in the city. The style is ancient and the material used in its construction is imported from Michigan. It is hand painted (by Logan); in color it is black; the dure is is beautiful, in order to harmonize the different factions in his employ; the door is painted a dead black (for Logan), with a on orange border (for Drouwn), with McLish's monogram done in green in the center panel.

There was quite a ripple of excitement in the carbon room last Wednesday afternoon, caused by the accidental overturning of a can of gasoline, which in some manner became ignited, causing a general stampede among the ladies in their frantic efforts to escape from the room. There were some of the grandest circus performances ever witnessed. For instance there was Miss Millie, who cleared a table three feet high without touching hand or feet, while Miss Emma, in some unaccountable manner, became tangled among several chairs, it taking some time to extricate her. Miss Laura, more brave than the rest, stood her ground bravely, and gently waved her apron to and fro while she sweetly lisped in accents soft and tender, "shoo, shoo!" At this critical moment Jimmy Ward arrived, and seizing a pail of water, he dashed heroically to action; but instead of throwing his water where it would do the most good, he threw it upon the now kneeling form of Miss Laura, who, upon receiving the chilly contents of the bucket, immediately ceased her "shoo shooing," and rushed frantically from the room. By this time foreman Frantz arrived and succeeded in subduing the flames without further damage. MOHR ANON.

INFANTILE SKIN DISEASES

Our oldest child, now six years of age, while an infant six months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the Cuticura Remedies. The effect was simply marvelous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy, child perfectly well, no repetition of the disease having ever occurred.

THOUSANDS OF CHILDREN.

Are born into the world every day with some eczematous affection, such as milk crust, scall head, scurf, or dandruff, sure to develop into an agonizing eczema, the itching, burning and disfiguration of which make life a prolonged torture unless properly treated.

A warm bath with Cuticura Soap, an exquisite Skin Beautifier, and a single application of Cuticura, the Great Skin Cure, with a little Cuticura Resolvent, the New Blood Purifier, is often sufficient to arrest the progress of the disease, and point to a speedy and permanent cure.

Hence, no mother who loves her children, who takes a pride in their beauty, purity and health, and in bestowing upon them a child's greatest inheritance,—a skin without a blemish and a body nourished by pure blood—should fail to make trail of the Cuticura Remedies.

CONSTITUTIONAL CATARRH.

No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell, of taste, of sight, of hearing the human voice, the mind,—one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and breaks up the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell, taste and hearing, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure consists of one bottle of the Radical Cure, one box of Catarrhal Solvent, and one Improved Inhaler, price $1.

A Boon

To mankind, said a member of the State Medical Society of Ga., at one of its meetings, "and the prescription ought to be given to the medical fraternity for the benefit of the Profession, for no such combination exists in the Pharmacopeas as that of Simmons Liver Regulator." The late Thos. H. Powers, of Philadelphia, America's greatest chemist, asserted "it was like the discovery of Dover, in his celebrated Dover's Powder, it could not be improved, and it was wonderfully strange that the combination had never been made in an officinal form."

L. M. Hinton, M. D., Washington, Ark., says: "No other remedy within my knowledge can fill its place. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action and at the same time aid (instead of weakening) the digestive powers."

Symptoms such as bitter or bad taste in the mouth; pain in the back, often mistaken for Rheumatism; sour stomach; loss of appetite; bowels alternately costive and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick yellow appearance of the skin and eyes; a dry cough often mistaken for Consumption, indicate Liver disease, and if not regulated in time great suffering, wretchedness and death will often ensue.

Price $1. Sold by all Druggists. Prepared by J. H. Zeilin & Co., Philadelphia, Pa

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "gone-ness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs**, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "Consumption Cure," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

The Juggler's Fatal Wand.

In Batavia a Parsee juggler treated the Dutch residents to a novel matanza, or killing show, in the circus of the old city bull-ring.

His victims were a number of worthless curs which their owners or captors had brought along with the distinct understanding that their entries would not survive the incidents of the performance. With no weapon but a light stick (possibly a tube), some six feet long by an inch in diameter, the performer entered the arena, and then invited his patrons to start their pets one at a time. A lank hound, almost hairless with mange, opened the festivities by making a rush around the ring, but stopped short on finding his way barred by the still lanker professor, and retreated after displaying his few remaining teeth. The necromancer held his staff at arm's length, still facing the dog, who presently began to stagger, and two minutes after had expired in convulsions. A second cur managed to run the blockade by leaping over the extended staff, but soon after began to show signs of disease, and before the end of the third minute had shared the fate of his predecessor. Dog after dog entered the ring in quick succession, some of them stopping in surprise and sniffing at the corpses of their doomed forerunners, but all finally approached the possessor of the fatal secret, or even snapped at his naked shins, and not one of the 1,000 spectators saw him strike a direct blow, or defend himself in any way suggesting a mechanical explanation of the uniform result. He would merely lift his staff with a menacing gesture or permit a blockade runner to touch it in darting by, but in no instance was there occasion for repeating that touch. The victims had hardly time to complete the circuit of the ring before their gait underwent a peculiar change: they would drag themselves along and stagger, or start as under a sudden blow, then roll over and die in the convulsions characterizing the effects of certain virulent drugs. They had evidently been poisoned; but how? A post-mortem inquest failed to reveal as much as a scratch or a puncture. A poisoned arrow could not have entirely disappeared while a gaseous poison would have betrayed itself by its odor or by its effects on the person of the performer. After the conclusion of the matanza Mr. Gerstaecker secured a private interview with the artist, and in vain offered him a liberal inducement to explain the modus operandi of his trick. The Parsee seemed bribe-proof, but at last took his tempter aside and in a whisper guaranteed the result of his professional assistance if anyone should wish to try the efficacy of his art by an experiment on a two-legged subject—the amount of the proffered compensation having evidently suggested a conjecture that the enterprising foreigner was contemplating the removal of some obnoxious fellow-biped!—*Cosmopolitan.*

An Imperative Necessity.

What pure air is to an unhealthy locality, what spring cleaning is to the neat housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized, the germs of disease destroyed. Scrofula, Salt Rheum, and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

How a Dying Child Was Saved!

Cicero, Hamilton Co., Ind., Sept. 19, 1882.—The following is a true account of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and finally quit walking entirely. The middle finger and thumb of either hand became enlarged, the flesh becoming hard. The hip joints became involved, so that when seventeen months old she could not stand, having lost the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of flesh and muscle. At eighteen months of age she was placed under the treatment of a prominent physician of Boston, Mass., but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1880. We took the child away not knowing what to do. In this dreadful dilemma we were over-persuaded by friends to try "one bottle" of Swift's Specific, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills, for many days to come, for it has brought our dying Hazel to life, to vigor, to strength and health again. The ashen hue of her cheeks has changed to a rosy tint. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to increase your testimonials of proof of the virtue of S. S. S., our names and what we have said is but a portion of what we owe to you, should you wish to use them.

Kindly yours,
Rev. F. Swift.

Historic Testimony to Miracles

A Change Going on in the Philosophical Thinking of the Day.

[Rev. Dr. S. F. Sprecher, of Cleveland.

As long as men believed that miracles were a priori impossible they were incompetent judges of the historical testimony concerning them. When they once perceive that all such a priori conceptions of the impossibilities of miracles are groundless they will be prepared to appreciate the biblical testimony concerning them. Who shall say that the evidence will not appear much more adequate when that old way of thinking is abandoned?

The report in which especially the evidence appears to Professor Huxley to be inadequate he points out in this sentence: 'Scientific ethics can and does declare that the profession of belief in them, on the evidence of documents of unknown date and of unknown authorship, is immoral. The difficulty which Professor Huxley here raises does not apply to at least one of the miracles recorded in the New Testament and that the most important, viz: the resurrection of Jesus Christ. Here we do know both the authorship and the date of certain books which record this miracle. All critics, without any exception, admit the authenticity of four epistles of the Apostle Paul—Romans, Galatians and First and Second Corinthians—and they were written twenty-eight years after the death of Christ. It is also universally admitted that Paul had been a missionary of Christianity for about twenty years before he wrote these epistles, having been converted not later than from six to ten years after the crucifixion of Christ. Paul's account therefore of that miracle cannot be of the nature of a legend, but must be just such as was preached by the apostles within several years or immediately after the death of Christ. If it is to be purely a question of historical evidence, conceding that such evidence can be strong enough to establish a miracle, then we have the concessions of some of the greatest skeptics who have ever lived regarding the miracle of the resurrection of Christ and would have accepted it had they not been held in the fetters of that old notion that no amount of historical testimony can establish a miracle. Dr. Baur, the greatest of modern skeptics, and the acknowledged master of the modern critical school, at the close of his life made the concession that the conversion of Paul was to him a mystery which could only be explained by 'the miracle of resurrection.' Let any one without predetermination not to believe in miracles consider how Paul or the disciples could have believed and acted as they did and he will be convinced with Dr. Baur that the facts can only be accounted for on the basis of the miracle of the resurrection of Christ.

The truth is that it is not from natural science, but from a pantheistic or materialistic philosophy, that the skeptical state of mind respecting the supernatural, the divine personality, the possibility of miracles and the efficacy of prayer has risen. It is not from natural science, but from a mode of philosophical thought which is now on the wane, such as the materialism of France and the pantheism of Germany. Philosophers are now beginning to recognize the personal will of man as transcending the sphere of nature, and to acknowledge the fact that the conception of force in nature is derived from our consciousness of personal power. And, further, the greatest philosophical and metaphysical thinkers are recognizing this consciousness of the soul and of God as the most certain of all knowledge and to acknowledge the fact that though intimately connected with physiology and natural science they have clear points of distinction and independent grounds of proof, and that the soul and God are not the result of material evolution, but that God exists absolutely, and that he is the creator of the soul.

Thus a change is going on in the philosophical thinking of the day, which, instead of the skeptical state produced by the preceding materialism and pantheism, will lead to a disposition to believe in the possibility of miracles and answer to prayer and in the credibility of the scriptural testimony to their truth and reality. Instead of the present state of "derisive and unexamining incredulity," there will be a state of scientific belief in the possibility of miracles and answers to prayer, and a rational, scrutinizing but believing disposition to receive the testimony of the Bible concerning the personal Creator, and concerning His moral government over men and concerning the revelation of His supernatural redemption of the human family.

Can't Make Anything Like It.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the liver to action and at the same time aid (instead of weakening) the digestive and assimilative powers of the system.

No other remedy within my knowledge can fill its place.

Experience has demonstrated that Ely's Cream Balm is the best catarrh remedy in use. My daughter, who is a sufferer from that miserable disease, is much better by the use of one bottle.—Dr. R. A. Sobouten, druggist, 758 So. Division St., Grand Rapids, Mich.

For twenty years I have suffered from catarrh. I purchased Ely's Cream Balm of J. Dawson & Son, which has since effectually cured my headache that I feel altogether a new man. I have recommended it to many with like good results.—M. M. Rex, D. D. S., Rochester, Ind.

The following, says a Washington letter, is said to have been an actual occurrence one day last week at the house of a certain Western Senator whose little daughter is known for her brightness and precocious ways. Senator B——, of Kentucky (both the Senators' names begin with B, and you may therefore take your choice), strolled in, in the course of an afternoon reception given by the wife of his Western colleague, and presently escorted another lady to the refreshment table, where a large bowl of lemonade—the hostess belongs to the Blue Ribbon Army—was provided for the thirsty visitors. In the act of raising the glass to his lips, and looking as if he were preparing to swallow a dose of medicine, the Kentuckian felt the hostess' little girl cling to his coat-tail, while at the same time she made an importunate request to be allowed to look on while he imbibed the cooling liquid. "I don't quite understand," said the puzzled Senator. "May I inquire, my dear, why you are so interested in the matter?" "O, yes," cried the child promptly. "I want to see you drink, because mamma says you do it like a fish."

Hon. C. Edwards Lester,

Late U. S. Consul to Italy, author of "The Glory and Shame of England," "America's Advancement," etc., etc., etc., writes as follows:—

New York, August 1, 1886.
122 E. 37th st.

Dr. J. C. Ayer & Co., Lowell, Mass.,

Gentlemen:—A sense of gratitude and the desire to render a service to the public impel me to make the following statements:

My college career, at New Haven, was interrupted by a severe cold which so enfeebled me that, for ten years, I had a hard struggle for life. Hemorrhage from the bronchial passages was the result of almost every fresh exposure. For years I was under treatment of the ablest practitioners without avail. At last I learned of

Ayer's Cherry Pectoral,

which I used (moderately and in small doses) at the first recurrence of a cold or any chest difficulty, and from which I invariably found relief. This was over 25 years ago. With all sorts of exposure, in all sorts of climates, I have never, to this day, had any cold nor any affection of the throat or lungs which did not yield to Ayer's Cherry Pectoral within 24 hours.

Of course I have never allowed myself to be without this remedy in all my voyages and travels. Under my own observation, it has given relief to vast numbers of persons; while in acute cases of pulmonary inflammation, such as croup and diphtheria in children, life has been preserved through its effects. I recommend its use in light but frequent doses. Properly administered, in accordance with your directions, it is

A Priceless Blessing

in any house. I speak earnestly because I feel earnestly. I have known many cases of apparently confirmed bronchitis and cough, with loss of voice, particularly among clergymen and other public speakers, perfectly cured by this medicine. Faithfully yours,

C. EDWARDS LESTER.

"While suffering from a severe bilious attack in March, 1883, a friend in Peoria, Ill., recommended Hood's Sarsaparilla. I tried the remedy, and was permanently cured." J. A. Shepard, travelling agent for Devoe & Co., Fulton Street, N. Y.

Mrs. Helen M. Gougar, of Lafayette, was called home from the International Council of Women, at Washington, by the intelligence of the death of her mother and will not return to the council. Mrs. Gougar was anxious to hear the lady Briton, a spirit of emulation prompting this desire.

There is considerable dissatisfaction among the ranks of the labor party with the nomination of Mr. Hilbrecht, and our reporter who circulates among many of the shop men, hears a good deal of it. He will not be supported with any enthusiasm, and many of the Knights of Labor have refused to vote for him for the office.

The active committees of the R. R. department of the Y. M. C. A., held a meeting at their rooms last evening for counsel and to plan for more aggressive work, which was well attended and for the interest of the work in the future, The Ladies' auxiliary served refreshments. To the Editor of THE SENTINEL:

The manufactories are picking up a little in work, but as long as the railroad strikes remain unsettled business will suffer.

The night force in the Wabash freight office has been suspended and the employes of that department will now work extra hours.

The employes of the Wabash shops of this city have an excellent sick and benefit association. It is spoken of very highly by the Indianapolis *Journal*.

Henry Meanewisch, of the Pittsburg machine shops, who was one of the recently suspended employes, took a position in the round house this morning.

A large force of men were engaged this morning in cleaning the snow from the tracks at the Pittsburg and Wabash depots. It was loaded onto flat cars and hauled out of the city.

Some of the machinery about the Pittsburg car shops was out of repair this morning by reason of a breakage and the force of men in that department were given a lay off to-day.

The Pennsylvania company is experimenting on several of its trains with the Westinghouse steam heat for coaches, which takes its supply of steam from the locomotive and has an auxiliary boiler under the car.

A Reamer, a well known blacksmith in the Pittsburg shops, has been confined to his home, on Hanna street, for some time, with a complication of diseases His condition was very serious yesterday and it was thought he could not recover.

Work at several of the car works is delayed for want of lumber en route from the northwest, which has been delayed by the strike troubles. A considerable per cent. of the pine lumber and hard-wood lumber used at car works in Indiana now comes from the northwest.

Mr. E. J. Pennington, of the Pennington machine works, met with a distressing accident yesterday by which he had the thumb of his right hand amputated. Mr. Pennington has been about machinery for many years and this is the first serious mishap that has attended his experience.

Ben Armack took a position in the Pittsburg machine shops yesterday in place of his brother Fred, who resigned. Our readers will recall the noble-hearted generosity of Ben during the recent suspension of employes in the shops, when he resigned his position to save his brother from being suspended.

The souvenirs to be presented their friends by Messrs. Sam, Pete & Max at the opening of their elegant new rooms will surprise the recipients.
